[redacted] Fred Demech says the subject task force will meet on 6 June and he needs to have materials together for them by Friday, 3 June. He is casting about to find representative Agency material for the task force to review and has asked for (a) a list of publications or papers on the Soviet political system; (b) a representative selection of similar articles which have appeared in the PDB; and, (c) for additional detail about the breakdown of the organization of the Office of Soviet Analysis provided by the ADDI (attached). With regard to the ADDI's paper, Demech notes that the total given to the Board orally in the Political Analysis Division and the Current Support Division was [redacted] people. This is more than the number shown in the ADDI's paper. He also asks for a breakdown of the amount of overseas experience, language skill levels, travel or service in the USSR and experience in working on the USSR for all of the people in these two divisions.

2. This may be somewhat of a tall order to get together by Friday. Please let me know what you anticipate we can have available or what we want to have available for Demech's use by that time.
